

Dahl Consulting Medica & Delta Dental 2026 Premium Costs

Dahl Consulting (DAHL) offers Medica which gives all benefit-eligible employees an opportunity to choose from among seven different plan designs using three different provider networks. The total cost of each plan and network option varies. DAHL makes available a monthly employer contribution based on the employee's selection. The employee pays the remainder of the monthly cost through payroll deductions. It is your responsibility to confirm each time prior to receiving services whether your provider is in-network.

If your spouse has other coverage available through their employer and they opt to be covered through the Dahl Consulting plan, then there is an additional \$250 monthly surcharge above the monthly contributions shown.
